Fujitsu recommends Windows 10 Pro.

## Data Sheet FUJITSU Workstation CELSIUS J580

### Maximum Warp in a SFF

No need to choose between size and performance in a Small Form Factor (SFF). As an industry first, the FUJITSU CELSIUS J580 offers full workstation performance in a 10 liter design. It is ideally suited for 2D and entry-level 3D performance and multi-monitor scenarios in control rooms, for surveillance and trading floors.

### Breakthrough performance in a Small Form Factor design

German design and engineering with performance and TCO in mind

- Choose between the energy-efficient Intel<sup>®</sup> Core<sup>™</sup> processors or the powerful Intel<sup>®</sup> Xeon<sup>®</sup> E-2200 processor family
- Support of Windows 10 Pro
- 64 GB DDR4 2,666 MHz memory
- Full-height graphics cards
- Boost your storage performance to a capacity of up to 14 TB
- Take advantage of the super-fast PCIe SSDs to provide a guick loading of core applications
- PCI support
- Support of 24/7 operation with reliable high-endurance and business critical drives

### An industry first - taking the Small Form Factor to the next level

- No compromise between performance, design and office space
- 10 liter only
- Full-height graphics up to NVIDIA® Quadro® P2200
- 52% smaller form factor than the CELSIUS W580 microtower

### Whisper quiet design

- Fujitsu's desktop workstations are designed and engineered in Europe
- Optimized thermal management and cooling solutions
- Low-noise emission of 19 dB(A) lead to a silent workplace and enhanced productivity

### Multi-monitor experience

Ideal for showrooms, control rooms, surveillance, trading floors or financial services companies

■ Up to 8 monitors with the NVIDIA<sup>®</sup> Mosaic<sup>™</sup> technology

# FUJITSU

### Components

| Processor   | Intel® Xeon® processor E-2278G (8 Cores / 16 Threads, 3.40 GHz, up to 5.0 GHz, 16 MB)   |  |  |  |  |
